Bakersfield, California
September 11, 1967

Mr. Harold Theisberg
Hyattstown, Maryland

Dear Mr. Theisberg:

When I wrote to you in August, I stated that I know the truth about the assassination. And this is what I maintain. It would take someone who is interested enough to study the facts to unravel the mixed up conspiracy.

No, I wasn't in Dallas that fateful day in November. I haven't been there since February of 1960. I am a Texas veteran. You may check my Army record. Some of the material that I can furnish might answer some of the questions you have posed. November 22 is a documented date in my life. In May 1962 (about the 5th) I made an inquiry into the results of a jeopardy hearing back there. The latter part of that same month I encountered a strange man

who made an attempt to follow me. I have seen pictures of that man. He was Jack Ruby. I went to the local police in September of last year and revealed what I know. Jack Ruby is dead today.

This is a long story and I have resolved to get the story to you; and I have mailed it typed. At least, I have completed a memoranda.

Please allow me to send this to you.

Yours truly,

Helen (Boone) McNamara
